

@Youth Engagement Officer LAKE

Some of you will have watched the fantastic County Lines performance which toured Norfolk's secondary schools at the beginning of the school year. With summer holidays just round the corner we would like to remind that this is a time when many young people are going out on their own and could potentially end up in a situation being befriended by someone who's intention is to use them for drug trafficking. If you spot the signs (new 'unhealthy' friendships, secrecy, additional mobile phone, more unexplained cash) please do not hesitate to call 101 to raise your concerns.

@Youth Engagement Officer CLARKE

Summer holidays are a great time of year for children to get out and about but the long summer holidays can also mean some children will at times be looking to entertain themselves. This can sometimes lead to them becoming involved in Anti-Social Behaviour (ASB) in various forms including hoax calling emergency services. This could have devastating consequences as it can take away resources from a genuine emergency. Attached to the newsletter is a hoax call video and we would appreciate if you could take the time to share this with your students before the end of term.

Safer Schools Newsletter

July 2018

Welcome to our second Safer Schools Newsletter. We hope you have all been enjoying the lovely weather and are now looking forward to the impending summer holidays.

With that in mind we just want to raise some current issues that can be heightened at this time of the year.

As always please feel free to share any of the relevant information with your school community.

Children, young people and adults are welcome to attend local bike registering events to protect their bikes from theft. For further information visit the bike register website as shown below.

TRENDING NOW...

It has come to our attention some schools across the country have been receiving threatening hoax emails. Please be vigilant when dealing with emails and DO NOT open any emails or their attachments if you are unsure about the source of the email. If you receive any threatening emails please forward to Norfolk Police on enquires@norfolk.pnn.police.uk

Some of you may be aware of Fortnite making the national news over recent months and unfortunately not always for the better. This is a very popular game with young people but one of the main risks is the chat feature where they can chat to anyone they are playing with. Please think about reminding your students about how they can stay safe online over the summer holidays. The NSPCC has highlighted this game as a stranger danger risk. Further advice regarding this app and others can be found on the NSPCC net aware website.
